

# MUMUKHU

## BROTHERS IN SLAVERY

You don't fit in the place you should  
Not doing the job they made for you  
Following steps too big for you  
Shut your dreams down as you're told  
Walking on another cast step  
Hold the line as you shall be crushed  
Rising up the sleepy crowd  
Until you head gets chopped

We don't give a shit about your world dominion  
We do not belong to your fucking herd  
Don't need or want your global advices  
Spit on your face from this worthless place

We shall not be the brothers in slavery  
We will not be the brothers in slavery

## BARBECUE IN BHOPAL

Mountains of waste  
Rivers of dried blood  
Hail to the new terraforming  
Human virus  
You should be useful  
As liquid plant food  
Facing the last aeon

But the sky's still blue  
Let's party until it turns to green  
The sky is still blue  
So who gives a shit?  
Drop a piece of that guy on the grill  
And grab me a beer

## GET WASTED OR DIE

They're fighting  
For their father's mistakes  
For the ancient wars  
For age-old genocides

How many  
Decimated brothers  
For greedy reasons  
And venomous pain?

Here we are  
With our growing hate  
With nothing in our hands  
Facing guns and tanks

How much blood  
Will politicians spill  
To protect lost relics  
And their sick glorious bills?

## BLACK SHEEP

Pay to be born  
And belong to this expandable mankind  
Looking for yourself for years  
They're watching you from your birth

Pay to be born  
And belong to this expandable mankind  
Looking for yourself for years  
A righteous Christian you'll become

Piss off you black sheep  
Get the fuck back to work

It's behind you  
Waiting for you to fall  
It's upon you  
Laughing, crawling down the hole

## WHIP REWARD

Take a look behind you  
And tell us what you don't see  
You finally realize  
You're not the leader of your life  
Dreaming of Kingship  
But you're a pawn

Does it hurt?  
It's the Chronicles of Yourself  
They're building your life

Unable to rip the leech  
And afraid to bite the master's hand  
Waiting for the whip reward  
Your master should be your meal

There's nothing in return  
There's nothing to expect

## THE EYE OF WRATH

Look what it takes to survive – burn it down  
Conscience of systems of lies – fact twister  
Don't try to tell what or why – I am for  
There's a black hole in my mind – The eye of wrath

I won't forget because I won't forgive

You'll pay for the faiths of the blind  
For mournings and missing bodies

I'll crush you, no mercy, dead or alive  
For young spirits you've hypnotized  
Beware of the evil glow in my eye  
You keep stirring up my wrath

Look what it takes to survive – Open Wide  
There's a black hole in my mind – The eye of wrath  
Control

How long can you hide the truth?  
Systematic manipulation  
You're caught in a lie  
Your life is a pile of shit

You're brought into emptiness  
There's nothing more to lose  
You're caught in a lie  
Your life is a pile of shit

Taken in a devouring sphere  
Can you feel your bowels melt inside?  
An organic layer seizes you  
The final product of an infernal chain

## STATE OF WAR

A State of war is only an excuse for domestic tyranny

## THE ORDER IS FUCKED UP (HIDE THE JERK)

We're the hate breeders  
Damage is our cause  
We're destruction bearers  
We burn what we're taught  
Order is fucked up  
Choose not to be innocent

Refuse self-infliction  
Destroy your servitude  
All they deserve is to rot in hell  
If you run, you're one of them

We're seeds of anger  
Damage is our cause  
Destruction's our motor  
Fight – the World is fucked up  
Feel the rising rage  
We're natural born haters

## I-BOMB

I'm a terrorist  
My life exalts in death  
Saviour and monster  
The world's my slave and bitch

I'm a terrorist  
Your life's shit to me  
You'll die when I decide  
I'm a hero bomb

Your God is a fake  
Truth's my associate  
Greed – I'm on my way  
To rape virgin sluts

Your fear's my euphoria  
Ask for it, you got it

From East to West  
I'm the beast – Fear me  
Send us more soldier boys  
Praise me – Beg Me  
Hail to the new era's Predator, you profane cunts

## USELESS FUCKS

We were walking down the street  
Going to the pub to laugh and drink  
When the stupid boneheads assaulted us  
Ready to fight we beat them down

Propaganda, always the same argument  
Create your own vision of history  
You are brainless, this is no scoop  
We will fight your stupid rhetoric

Right wings is not a solution  
When you're frustrated by your own life  
Your world is full of disillusion  
When you see that's all lies

## WITHOUT GRIEF

Let me grab your hand and help you to sink  
Deep down in the mud you may begin to think  
I don't need you anymore  
But watching you die may be instructive

The World doesn't want anymore saints

I'm a vulture betting on your pain  
Smashing this fake hope  
Fear in your eyes is getting me high

## PIGS ON FIRE

Trampled and wasted  
Thousands of hangovers  
I can't remember how many shots  
I got no money – I got no drink

Where's that damned place to be  
Where I'll be back from the dead

Where's your boss when it's the end of the line  
You've had your chance now you're done

## WORMS OF CHAOS

Stop talking and begin to do what you say  
Waiting pointlessly for someone to wake you up  
Stop trying  
Just begin to do what you say  
Could today be the day?  
The D-day won't be waiting for you.

May the worms of chaos  
Dig their way through your mind  
Your lack of anger is keeping you blind

So what are you?  
Your own master or your own slave  
The right to disagree has been removed  
But you didn't move  
Keep an eye on your right to breathe

## DAILY PUNISHMENT

Human waste - Hordes of vermin  
You're locked in and wait for their verdict  
Punishment - critical end  
Contaminate - Erase the system  
There's no escape from this trap  
They will crush everything you stand for

There will be no justice  
Innocents shall suffer in silence  
Praying for a god  
Of deviance and bastardization  
Waging a war for progress  
Targeting nonsense theories  
Procreating  
Our own demise and self termination

Watch them as they punish you  
You claim for vengeance  
Anyway you're fucked, so die in pain

## PISSKEEPER

Why do I have to explain you everything twice  
You stupid fuck  
Why should I feel the need to justify in front of you?  
Your authority means your gun  
And your brain is too small for your skull  
Protecting us from them, but who protects them from you

Fueled by pointless brutality  
Chosen hopelessly  
Is this the job of your life?  
You would have been to become...

But you choose to become a cop  
The blind fist of injustice  
You choose to become a cop  
On your face I piss.

## BEHOLD THE FAILURE

You want to live to work  
And behold your world  
Once you'll be old, fat and sad  
Don't give a shit about what you life for  
Don't give a shit about nothing more

Behold the failure  
Is still not enough  
So please start to hate us  
It shouldn't be so tough

Give us back hope  
By cloning the next pope

First on the list  
To judge and condemn  
No reason for coldest  
The TV says it's yes  
Your perfect system  
Changes you into scum  
Your time will come

## REGRESSION

Downfall of a system that allows each slaughter  
Hypocrites of revolution  
Their lies brought damnation and greed  
We're all destined to burn

Welcome to the days of affliction and the end of man  
The enemy is coming through our minds  
We're trapped in disbelief of a modern world in misery  
What progression are you living for?

## WHISH YOU THE WORST

Keep out of my world  
Stay close to your fake friends  
The ones you thought were on your side  
Keep out of my world  
Stay close to your fake friends  
They may not remain yours for long

Who the fuck are you fucking with  
Keep in touch with your brain  
Who the fuck are you fucking with  
Payback time for soon

I wish you the worst  
Get the world rid of you  
You're making the world ashamed  
I wish you the worst

## LET THERE BE MEAT

Don't enlarge your penis  
Just reduce your wife  
  
Better be lucky than smart

## PARASITES

You're not a hero  
Heroes stay alive  
Just a dead weight  
Carried in a bag by other scumbags  
Waiting for their turn  
To never return  
And reach at last their well deserved peace

Remove the parasites  
Reconquer the land

Remove the parasites  
For freedom you stand

Back in pieces in a body bag  
Disposable meat, I won't cry for you  
Carrying lights to the dark side of the world  
The choice was yours, you fuck

## IN COLD BLOOD

You were born in a high-class system  
Drenched in apathy  
Consumed by your own greed  
Always trying to know in what trend you shall believe  
I shit on your face  
And spit on your achieved way of life

Negativism is the answer to this false community  
Victimization is the next step of your sad fucking life  
Rotting in hell is what you deserve  
You're right sucker  
Cut your own throat and pay the bill

## FACE REALITY

Face reality  
Stop acting like a slave  
Your ignorance is your weakest point

Thanks to god for making me discover  
A two thousand old shame  
I will make my way to heaven  
Flying over your sinner corpses  
Begging for the daily whiplash  
Orgasm through pain

Burn your local priest  
Crush the global dogma

## APATHY

I don't give a shit about the price you let on me  
Won't work to fill your pockets anymore  
Fuck your incomes  
We don't belong to you  
Just keep your fake smiles for your kids

Let's steal the money from the rich  
And use it for goods  
Blast off the walls around you  
And feel welcome where you're not

You're not my boss, just high on cash  
I will do my part to help you fall back on the ground  
And make sure you fall on something hard  
Taste the sweetness of real life

Archaic hierarchy  
Military discipline  
Global prison  
Pathetic submission

## CRAWLER

No more hope for the damned  
A deadly run – the enemy is here  
Misinformation and shock reaction  
The beast of prey is waiting for your fall

You think you're walking the right way  
The path of glory – perfection is your goal  
Are you still waiting for retaliation?  
Two-faced bastard – die with yourself

The worse is still to come  
Your mind is controlled by a crawler  
People like you contribute  
To the global collapse

Stop moaning for a damned minute  
How ready are you to die for your short-term nation?  
Stop voting as a monolith.  
Keep spitting on the congress

## MASS MURDER INSTITUTION

Hundreds deaths per year  
That's not enough for them  
And for their traditions  
They would do anything

Neutral country  
But necessary war for you  
You're given warfare  
That you keep at home

In spit of many warnings  
Our government  
Denies any responsibility  
In the slaughter to be perpetrated

A decimated family

Massacred citizens  
That's not enough for them  
To finally change that

## DOOMED

The end is at hand  
The winds of chaos are blowing  
Chaos and lost civilizations  
Our global leaders march for rise to power  
As radiation keeps on spreading

We're condemned to grow in this filth  
And to infinitely bear the cross  
The kings of the earth  
In their quest of power  
Have condemned us all

Contamination through religions  
Trends, False hope  
The beast disguised in an angel  
Fallen demigods  
Politicians now will pay for greed  
Brothers in Slavery

You don't fit in the place you should  
Not doing the job they made for you  
Following steps too big for you  
Shut your dreams down as you're told  
Walking on another cast step  
Hold the line as you shall be crushed  
Rising up the sleepy crowd  
Until you head gets chopped

We don't give a shit about your world dominion  
We do not belong to your fucking herd  
Don't need or want your global advices  
Spit on your face from this worthless place

We shall not be the brothers in slavery  
We will not be the brothers in slavery
